interests	art and architecture, modern dance, evening improvisation in a kitchen
technical skills	A. Acrobat, InDesign, Illustrator, Photoshop, Premiere, M. Word, Excel, Powerpoint, Teams and Sketchup 3D

I'm a Slovak graphic designer based in Prague, born to a family of architects, fascinated by both, architecture and design. My self-initiated projects usually involve architecture and urbanism and are focused on solving public problems, urban planning, sustainable conservation of architecture, and information accessibility. I'm a freelancer, but not a lone wolf. I enjoy cooperating with designers, curators, architects, artists, artisans, and other creatives.
